Subject: Fordscove staff housing project

To whom it may concern,I'm writing in support of staff accommodation at Fordscove cottage and Marina.It is my experience having worked on the northcoast and throughout B.C. that staff accommodation is provided by the outfit.It is part and parcel of working in tourism in B.C..As we all know housing is a problem throughout Canada that the government has been slow to address,so finding housing for the summer months is next to impossible,many are forced to camp,live in vans or sailboats without running water and let's remember this is a first world country.Yours Sincerley Samantha Lampman
