Topic - HOUSING

Recently, housing has been a hot topic with the Islands Trust: how can we create bylaws that support sustainable, affordable housing? If the current trend continues, it appears that the gulf islands will only be inhabited by the rich with nowhere for families, lower income, and service or essential workers to live (see Saltspring).

Lasqueti is always a bit behind, thus so far, we are still only marginally affected by this problem. I am on the Regional Planning Committee (RPC) and the RPC's housing sub-committee. So, I offer you these questions: is housing a big issue on Lasqueti? How have you been affected? Any brilliant solutions? Thoughts? I have my own opinions on the issue, but I strive to represent Lasquetians as much as possible, so I need to hear from you.
