Hi folks,

A few things:

Natural Resources

General Objectives

Objective 1 To conserve forest lands, fresh water supplies, wetlands, foreshore areas, **historical** and archaeological cultural heritage, and existing agricultural lands.

Two things.

1. Can we call the Heading “Natural and Cultural Resources”??? It’s important that cultural heritage be distinguished from “natural”
2. there is inconsistent use of the terms archaeological, historic, heritage, etc. throughout. I haven’t gone through and changed them.

With thanks
Dana
