**Subject:** Affordable Housing for Mayne Island

I am writing to express my feelings about the rezoning application for affordable housing at 375 Village Bay Road.

I am very aware of the suffering caused to Mayne islanders of moderate incomes, i.e. the people who work here as opposed to retirees and vacation homeowners due to the lack of affordable rental housing.

I am very much in support of this application and I trust that with due care and attention the valid concerns around water and other issues can be resolved.
