May 30, 2022

To: Mayne Island Local Trust Committee

Dear Trustees and Staff,

At the request of the planner, the Mayne Island Housing Society is resubmitting the petition information with the addresses and other contact information removed. Since our last letter, there are additional signatures on the list bringing the total number of signatures to 224.

The Mayne Island Housing Society circulated a petition (hard copy and online) in September and early October 2021 to document support for the re-zoning application to develop a 10 unit affordable rental housing complex on the donated lot at 375 Village Bay Rd. The petition was not submitted to the Mayne Island Local Trust Committee at that time because the application was then placed in abeyance.

As the application is now out of abeyance and the process is continuing, the directors of the Mayne Island Housing Society are sending this petition in support of our application for rezoning.

The attached pages present the names of 224 people who signed the petition (hard copy and online).

The wording of the petition was as follows:

The rental housing need on Mayne Island is urgent. The Salish Grove Housing Development at 375 Village Bay Rd. is the only planned purpose-built affordable housing on the Island. I support the Salish Grove Development and encourage the Island Trustees to move this application forward without further delay.

Sincerely,

Deborah Goldman
President
