My name is John Allan and I live on NP. I am aware of the concerns of Port Washington Rd neighbours have had about the granting for the two past years of a TUP to Big Digem at 3334 Port Washington Rd and their worries that Islands Trust may rezone valuable agricultural land for 'light commercial use'.

> Braedon has already been given two years to find a suitable venue for his heavy duty trucks- his operation would in no way be called "light industrial" by islanders who live, walk, ride their bikes, as I do, along this beautiful country road.

> The Mandate of the islands trust is to Preserve and Protect. I urge you not to grant another TUP to Big Digem or to rezone 3334 Port Washington Road. Thanks John Allan.
