Subject: GANGES CELL TOWER dangers

Thank you for being open to realizing how dangerous this cell tower location is.

In addition to the vital points below. Personally I can understand how the \$\$\$\$ rewards the property owner may be offered are tempting, as I had a similar opportunity elsewhere when I needed the funds. Yet I declined the offer when

I considered the dangers and how they would impact my neighborhood.

I invite the property owner to realize the dangers to his neighborhood & decline the temptation for the higher good.
