

SS RZ 2017.3

To Salt Spring Local Trust Council

I have reservations on the rezoning of a 2.4 acre property to allow 2 dwellings.

The reason for this rezoning is to provide affordable housing using a second building, a workshop.

However, the rezoning of this property will not guarantee that this building will be reconstructed as a dwelling or that the requirements for potable water and septic tests will be satisfied.

This rezoning requires due diligence.

ELISA RATHJE
