Subject: Mid Isl. Marine

Jamie Harris and Laura Patrick

I am in favour of Mid IIs Marine's application for rezoning.

They are an excellent company that provides an important service to boaters and to those who need the service of small motors and other farming equipment.

My experience with Mid Isl Marine, Nick and his staff has been outstanding for more than 12 years. They are professional in every aspect of their business. Saltspring Island is very lucky to have such a thriving, well-managed business.

In my view, the location of the business is very suitable for the commercial zoning Mid Isl is applying for. Please support this successful business that is a good employer and excellent service provider to clients.
