To Whom It May Concern

I am writing in support of Mid Isle Marine's rezoning application. Having been a close neighbour & frequent user of Mid Isle Marine's services over the years I very much support this application to rezone the property on Upper Ganges Road. This property has been used for over three decades as a Marine service centre. The excellent services offered by Mid Isle are essential for the boating community of Salt Spring Island. Without this operation the island boating community has no option other than to go off island for marine & small engine repairs.

Thank you for considering this application.

Yours Faithfully

Nicholas Hunt
