To whom it may concern,

I fully support the application for rezoning of 248 Upper Ganges road, "Mid Isle Marine"'s owners Nick Williams and Emily Myers.

There is not enough land zoned for this kind of operation on Salt Spring Island.

Nick Williams has demonstrated that he is cognizant of the importance of water catchment so has installed a system.

He is producing less dust for having paved the entry and workshop area.

He has installed fences to minimize the noise to neighbours and sight from the main road.

He is a very well loved and responsible employer, supporting 9 families with good wages and benefits.

He is supplying essentials expert services , marine and otherwise.

He deserves this community support in his endeavour.

Marie Beaudoin, Salt Spring Island.
