Dear Trustees,

There seems to be serious concern in the Salt Spring Island community with holding a first reading of proposed Bylaw 528. I do not pretend to know the ins and outs, but hearing the concerns expressed by people that are thoughtful and knowledgeable about the issues tells me that not all is well with proceeding at this time. I hope that there may be new consideration by Island Trust on whether proceeding now is the most effective action for achieving the preservation and protection of Salt Spring Island.

Thank you.

Sincerely,  
Mart Gross
