Subject: Draft Bylaw 528

Hello,

I'm writing to you in support of Draft Bylaw 528.

Please keep making decisions that allow us to house our Family members on our properties.

I have [REDACTED] acres and the only way for my [REDACTED] to ever have permanent housing is to live on my land.

Most of the property is forested, we collect rainwater and steward our land.

The effect of 1 more person will not have that great of an effect.

Next up, please put an end to the water moratorium so we can legally build an in-law suite or dwelling without the high cost of digging a well.

Thanks,
Karen Hudson
