Subject: RE: SSI housing

Thanks Howard. I am copying this to staff for the record. To be clear, the purpose of first reading is to get a matter on the table for debate, input from other agencies and from the public at large. As you note, it is a "proposal" and a long way from a decision.

Peter

Subject: SSI housing

Please do not give first (or any) reading to any proposal, including Bylaw 528, that densifies housing in an untargeted manner. Densification needs to occur in existing walkable villages near public transport and should be some type of multi-family housing!

THANKS

Howard Baker
