**Subject:** Bylaw 528

Dear Trustees,

We are writing to object to proposed Bylaw 528.

In our opinion, this bylaw would contravene our OCP. Revisions to the OCP would require a public consultation process. Any density increases for “affordable housing” must have a guarantee for affordability and be in appropriate locations. What exactly is your understanding of affordable workforce housing?

A better approach would certainly be to act to shut down all of the illegal STVRs.

Sincerely,  
Janice McLean  
Richard Kerr
