Subject: Affordable housing on Salt Spring

Laura Patrick,

Affordable housing is the most important issue in Salt Spring Island!
Without affordable housing ,people who provide support services must
either travel to Salt Spring ,live in appalling housing or move away.
Affordable housing means \$800-1500 a month not \$1800-\$2000 plus for 2-
3 bedroom homes
We desperately need this type of affordable housing to make the Island
viable for lower income families
