Subject: Housing Action Needed

Laura Patrick,

I'm writing to urge the Trust take immediate and effective action to address Salt Spring's affordable housing crisis. A good place to start would be the eight actions submitted to the Trust a year ago by concerned housing advocates. Another would be to approve the proposal for a new Housing Working Group and make housing one of the top five priorities with staff time to reflect this. I know that if we all work together we can make progress but the Trust must take the lead.

Murray Reiss
