**Subject:** Housing is a top priority

Laura Patrick,

Dear Trustees,

After all these years of talking and debate & community engagement it appears that we are no closer to resolving the extremely urgent issue of affordable housing. It is a shame that some teacher, nurse, service people secured jobs on SSI but have to let them go due to lack of proper, affordable housing. Eight strong, achievable solutions were proposed, after much painstaking research, just last year.

I strongly support the implementation of the proposed Housing Working Group that would work with the Trust and get this item brought to the top of the agenda.

Regards,

Marcelle Roy Roy
