**Subject:** Housing should be in the top priorities for the Trust Committee

Laura Patrick,

There are many housing needs on Salt Spring. Certainly it is recognized as one of the most basic needs for our Homeless population.

There is also a critical need for affordable housing in order ensure that we can house all of the required service workers needed to support a myriad of positions on our Island.

These are just two instances, but there are many more.

I ask you to listen to and observe these critical needs and be open to a full range of creative solutions.

Arlene Dashwood
