Please don't mess with the LUB! Through the foresight of many past and present Gulf Islanders, Salt Spring and the other Gulf Islands have developed into a model of sustainable living that will lead the way for other communities to follow in the years to come, if it's not too late. Yes, we need worker affordable housing, and of course we need the gap between wealthy and needy to narrow, but please don't make changes to the LUB that leaves the gulf islands open to speculation and over-development. Our planet is so very precious and I pray that we don't join the masses who, through greed and lack of foresight, are threatening Mother Earth.

Sincerely,

Wendy Kaye (returning to Salt Spring after 3 years' absence)

OCP/LUB
