The Islands Trust was created to protect these Gulf Islands from overdevelopment and their NATURAL environment ,retaining their rural nature !

We voted against incorporation and the development that would bring We were against Bylaw 530and the changes that would bring Now changes to the wording of the mandate could bring blanket rezoning which we are opposed to Saltspring still has 500 lots to be eventually developed and do we know that we have enough water to support this It is true that we need more AFFORDABLE housing but let us make sure that it is truly affordable and grouped around Ganges Keep elected officials out of bylaw enforcement as was stated by the Provincial Ombudsperson Yours truly J Jang Sent from my iPad
