Hello, lived here for 30 years and been coming here for 60. It should be clear that Saltspring is perfect as it is and should remain such with the protect and preserve mentality in place always. It is my vision that as the world evolves into a overpopulated , overdeveloped nightmare , Saltspring will remain a wonderful example of Nature at its finest, a west coast community cared for and loved by people with endless gratitude for its uniqueness. We must avoid going down the road of " progress", block developers, incorporation and anything that messes with this truly beautiful, special ambiance and energy. Blessings, Geoff Wethersett, [REDACTED].
