Subject: Bylaw 122

David and I are asking that you rescind the very contentious Bylaw 122.

> The reasons for this request are already well known due to the overwhelming public opposition before it was passed by the previous trustees Wright and Thorne.

> We are personally affected and are not comfortable with the changes  
> brought= about by the passing of Bylaw 122.

> When we built our home 22 years ago we followed EVERY BYLAW, BUILDING  
> CODE etc.

> Why now, 22 years later is our home deemed legal non conforming due to size and setbacks?

> We do not want that designation attached to our home.

> Was there really a need to make the changes that impact many other  
> homes on South Pender? We think not.

>

> Thank you
