To the South Pender Island Trustees  
and the LTC

I have followed the debate about repealing Bylaw 122. I am not in favor of repealing this bylaw as the dialogue about the issue has revealed adequately to me that: no properties will be legally non-conforming; that home insurance will not be affected by the bylaw; that broadening set backs and reducing house size are in line with our OCP and the vision that I and many of my South Pender neighbors have for our community.
